PRODUCT DATA SHEET

LINSEED OIL VARNISH [Description](#)

Linseed oil varnish manufactured by the company A.I. Schulze Chemotechnische Fabrik e.K. is tailored for its use in our main product **BIRKOSIT Dichtungskitt**[®], a single-component sealing material. It is designed to be mixed with **BIRKOSIT Dichtungskitt**[®] to make it easier to apply. The **linseed oil varnish** is suitable for use in sealants that are subject to the highest quality requirements in terms of their temperature resistance.

LINSEED OIL VARNISH [Service life](#)

When mixed with our product **BIRKOSIT Dichtungskitt**[®], we guarantee a service life **of 10 years** for the **linseed oil varnish**.

LINSEED OIL VARNISH [Application](#)

The **linseed oil varnish** is to be mixed with the product **BIRKOSIT Dichtungskitt**[®] using a putty knife. The mixing ratio is **1 : 10**. (10 parts Birkosit can be mixed with 1 part linseed oil varnish.) The colour is yellow-brown. The product is in a liquid state. The **linseed oil varnish** improves the brushability of the product **BIRKOSIT Dichtungskitt**[®].

LINSEED OIL VARNISH [Storage](#)

Packed in 1 litre plastic bottles. If stored correctly, the **linseed oil varnish** has a **storage life of 5 years** in the bottle, its properties are stable and it is flexible in its use. Close the bottle properly if only a part of the contents is going to be used.
